BASQUE COMPANIES CATALOGUE

WINDEUROPE BILBAO 2024

 <p>Aclara Meters www.hubbell.com/hubbellpowersystems/en/hps-brands/aclara</p>	<p>At Aclara, we help utilities manage change, seek new approaches and harness data and new technologies to supply more efficient and reliable services to their customers. We offer a comprehensive suite of solutions comprised of meters and edge devices, advanced metering infrastructure (AMI), software, installation services and provision of labor with a single point of accountability. As an end-to-end, smart infrastructure solutions (SIS) partner we couple innovative technology with data-driven solutions to predict, plan and respond to system conditions across electric, gas or water distribution networks.</p> <p>Stand(s) 1-B70</p>
 <p>AEROBLADE www.aeroblade.com</p>	<p>Aeroblade is a leading engineering services company offering an enhanced assets management based on OEM grade knowledge. We offer support to our customers so that they can make the best decisions for their business always based on technology and our experience along the whole lifecycle of the assets.</p> <p>Stand(s) 1-A70</p>
 <p>Alerion Technologies www.aleriontec.com</p>	<p>Alerion Develops digital twins of wind turbines using autonomous drones. AI and structural engineering models – Fully autonomous drone inspections, onshore and offshore – Automated damage assessment and cloud-based platform – Power Curve analysis – RUL calculations – Predictive maintenance.</p> <p>Stand(s) 1-A60</p>

WINDEUROPE BILBAO 2024

 <p>Amenabar Especialistas en elevación AMENABAR www.amenabar.es/index.html</p>	<p>Since 1962, AMENABAR has been developing and manufacturing chains, hoists, slings, and other lifting systems. Its multidisciplinary team, experience and know-how position it as a supplier of comprehensive solutions through cutting-edge products and services for the most demanding sectors. AMENABAR is a benchmark as a true specialist in industrial lifting.</p> <p>Stand(s) 1-A30</p>
 <p>ANTEC antec-group.com</p>	<p>Antec is a Company specialized in the design, manufacture and maintenance of brakes for wind turbines. We supply onshore and offshore braking solutions. Our range of wind turbine brakes includes yaw brakes, rotor brakes and rotor locks, which can be individually customized to meet the requirements of our customers.</p> <p>Stand(s) 1-A60</p>
 <p>ARTECHE www.arteche.com</p>	<p>"Arteche is a global designer, manufacturer, integrator and provider of electrical equipment and solutions for the measuring, protection, automation, control and communication industry mainly across the electricity sector: generation, transmission and distribution with a special focus on integrating renewables and smart grids"</p> <p>Stand(s) 1-B80</p>
<p>CARRRENEWABLES CARR RENEWABLES www.carrrenewables.com</p>	<p>Formed in 2019, Carr Renewables, is a fusion of more than 200 years of renewable energy expertise with the resources of Carr Engineering, Inc., a professional services organization with more than 35 years of product RCAs . Our focus is</p>

	<p>the profitability of our client's assets in operation.</p> <p>Stand(s) 1-A70</p>
 <p>CEIT www.ceit.es</p>	<p>Ceit is a non-profit Technology Center that uses its high specialization in advanced manufacturing, mobility, sustainability, and information technologies to develop industrial applied research projects in close collaboration with companies.</p> <p>Stand(s) 1-A80</p>
 <p>Composite Patch www.compositepatch.com</p>	<p>APLTec composite patch is an all-weather, error-proof, fast-curing composite repair system. Permanent epoxy structural repair system that bonds to virtually any surface. It is the world's lightest carry-on & ready-to-use repair solution.</p> <p>Stand(s) 1-A60</p>
 <p>DINNTECO www.dinnteco.com</p>	<p>We are a company with more than 20 years of experience in lightning protection. After several years of investing and developing R&D, we have managed to patent our own technology worldwide.</p> <p>The idea of Dinnteco International is to revolutionise lightning protection systems. Not only did we develop a product that breaks with the pre-established parameters of lightning protection, but it is also a completely ecological product that respects the environment.</p> <p>We have a wide network of distributors with presence in 38 countries, having installed more than 8.000 devices in 12 different market sectors.</p> <p>Stand(s) 1-A60</p>

<p>ENERGIAREN EUSKAL ERAKUNDEA</p>  <p>ENTE VASCO DE LA ENERGÍA</p> <p>ENTE VASCO DE LA ENERGIA www.eve.eus</p>	<p>Energy agency created by the Basque Government in 1982. It aims to boost the conditions necessary to implement an energy policy geared towards ensuring availability of energy with the best conditions of supply security, cost and environmental impact, to steer the Basque Country towards a position of sustainable development.</p> <p>Stand(s) 1-B50, 1-B60.</p>
 <p>ERREKA</p> <p>ERREKA FASTENING SOLUTIONS www.errekafasteningsolutions.com</p>	<p>Erreka offers engineering projects and services for bolted connections for both OEM and Assets owners: Manufacturing of bolts specially designed for onshore and offshore win, oil & gas, and thermal machines. Monitoring of the real load of bolts; i-bolt technology Optimized Tightening, Condition Based Maintenance Strategies, Failure Analysis, etc.</p> <p>Stand(s) 1-B40</p>
 <p>Euskal Forging www.euskalforging.com</p>	<p>Euskalforging offers seamless rolled rings up to 10 meters and 80 tons. World leaders in offshore flanges for foundations and towers.</p> <p>Stand(s) 1-B70</p>
 <p>Fosroc www.fosroc.com</p>	<p>"Fosroc is a leading international supplier of constructive solutions for the wind energy sector, with a particular focus on high performance chemicals such as grouts, admixtures, protective coatings, waterproofing systems, repair mortars, sealants or injection resins."</p> <p>Stand(s) 1-A50</p>
<p>Glual Energy www.glual.com</p>	<p>Glual is a leading global manufacturer providing innovative hydraulic solutions to the wind energy sector. Our product portfolio benefits from our strong development, manufacturing, and</p>

	<p>testing capabilities. Hydraulic cylinders, power packs, manifold blocks, rotary unions, and piston accumulators are a core part of our offers.</p> <p>Stand(s) 1-A50</p>
 <p>GUREAK www.gureakindustrial.com</p>	<p>Multi-Technological products: WIRES: Cutting and Crimping, ELECTRONICS: Design & Manufacturing. PLASTICS, Design & Injection; ASSEMBLIES, Ad-hoc & Add Value LOGISTICS. The industrial activity focuses on generating opportunities for people, with a Social & Employment.</p> <p>Stand(s) 1-B80</p>
 <p>HAIZEA WIND GROUP www.haizeawindgroup.com</p>	<p>Haizea Wind Group is among the world's leading manufacturers of onshore and offshore towers and foundations. The Group is also a global player in the casting and machining of major wind components, including hubs, frames and shafts. Employing more than 1,200 people, Haizea is present in Spain, Argentina and France.</p> <p>Stand(s) 1-B70</p>
 <p>HINE GROUP www.hinegroup.com</p>	<p>HINE supplies hydraulic systems, hydraulic components, and cooling systems for renewable companies. The company's in-house engineering team, extensive R&D portfolio, and global manufacturing capabilities deliver competitive hydraulic solutions to customers worldwide. We are in, China, Spain, U.S., Brazil, India, and Mexico.</p> <p>Stand(s) 1-B40</p>
	<p>"IDOM is an independent engineering firm (65 years'</p>

BASQUE COMPANIES CATALOGUE

WINDEUROPE BILBAO 2024

 <p>IDOM www.idom.com</p>	<p>experience, 4000 professionals, projects in 125 countries). IDOM covers all phases of the project with multidisciplinary teams. The projects developed by IDOM in onshore and offshore add up to more than 450 wind farms.” Stand(s) 1-A50</p>
 <p>INALIA INNOVATING DIFFERENTLY</p> <p>Inalia Innovación y Desarrollo www.inalia.tech/en/inalia-structural-health-monitoring/</p>	<p>Inalia develops structural health monitoring systems. The solutions are based on physical measurements and data conversion into added-value information through FEM and CFD analysis. Inalia also combines both tools with machine learning algorithms to create predictive models. Stand(s) 1-A50</p>
 <p>IRIZAR FORGE www.irizarforge.com</p>	<p>"IRIZAR FORGE: LIFTING & MOORING" One Stop Shop: Design, Production & Testing provider fully certified by class for CRANES related Lifting & Rigging Components (hooks, hookblocks, swivels) and Mooring & Anchoring lines connectors (shackles, H-Y-Master Links, Swivels, Kenters) Stand(s) 1-A30</p>
 <p>KIMUA</p> <p>Kimua Engineering www.kimuagroup.com</p>	<p>Kimua provides solutions intended to solve installation, transport and O&M challenges experienced in the wind industry. Additionally, the knowledge acquired over the years has led the company to the introduction of services designed to make it easier and more cost-effective for our customers to operate. Stand(s) 1-A40</p>
 <p>LAULAGUN bearings LAULAGUN BEARINGS www.laulagun.com</p>	<p>"LAULAGUN BEARINGS has designed, manufactured and marketed large bearings and slewing rings since 1973, with a</p>

	<p>integrate more renewable energy generation, enable greater sustainable mobility, and guarantee supply for buildings and infrastructure with critical energy needs.</p> <p>Stand(s) 1-B50.</p>
 <p>PCVUE SOLUTIONS pcvuescada.com</p>	<p>"PcVue delivers a software SCADA platform to monitor & control any kind of heterogeneous & distributed assets. The ability to connect to all type of devices, handling millions of data points, coupled with real-time monitoring, alarms/events and data processing, ensures the reliability and availability of power for generation/distribution/transmission systems.."</p> <p>Stand(s) 1-A80</p>
 <p>RENOGEAR www.renogear.net</p>	<p>Renogear is part of the Xubi group, a world leader and reference in mechanical transmissions. Renogear designs and manufactures medium and large bearings and slewing rings.</p> <p>Stand(s) 1-B50</p>
 <p>Saitec Offshore Technologies www.saitec-offshore.com</p>	<p>Saitec Offshore develops SATH (Swinging Around Twin Hull) a disruptive that offers the solutions to overcome the limitations and challenges in the market: removes the barriers related to water dept, reduces both CapEx and OpEx and enhances local content.</p> <p>Stand(s) 1-A70</p>
 <p>SENER INGENIERIA Y SISTEMAS www.group.sener</p>	<p>Private engineering and technology group with worldwide presence. In offshore wind, Sener goes hand in hand with its clients throughout the life cycle of a project, providing solutions through services of permitting, engineering and project and construction management or developing floating technology,</p>

 <p>SOVERIN CONTROL, s.L.</p> <p>SOVERIN CONTROL www.soverincontrol.com</p>	<p>Soverin Control provides Avi&Navi light 11systems for onshore and offshore wind projects, adapted to country-specific requirements all over the world. Dark Sky offers an innovative solution to dramatically reduce nighttime light emissions from wind farms by only activating the light when an aircraft is in close proximity.</p> <p>Stand(s) 1-B60.</p>
 <p>SPANSET</p> <p>https://www.spanset.com/es-es</p>	<p>SpanSet, the international specialist in Heavy Lifting with more than 50 years of experience in the sector, conceives integral solutions for the lifting and handling of complex loads. Technical and tailor-made solutions for high-risk maneuvers in the wind industry, including the design and manufacture of equipment and the ideal sling for each operation. The SpanSet Group owns Axzion, the international reference in offshore solutions.</p> <p>Stand(s) 1-A60</p>
 <p>SPARES IN MOTION</p> <p>www.sparesinmotion.com</p>	<p>We are the global go-to place for wind turbine spare parts. We manage various streams of parts to ensure the reliability, profitability, and maintainability of wind operations.</p> <p>Stand(s) 1-B80</p>
 <p>TECNALIA RESEARCH & INNOVATION</p> <p>www.tecnalia.com</p>	<p>Tecnalia is the largest center of R&D in Spain, a benchmark in Europe and a member of the BRTA. We provide technological solutions for offshore systems, energy integration in smart grids and energy storage, digitalization for O&M and for process improvement, innovative materials and to support a circular economy.</p> <p>Stand(s) 1-A40</p>
